Descriptif de l'éditeur

iPuissance 4D is a free multiplayer (local/online) Connect 4 style video game.

The Connect Four game is played with red and yellow counters on a vertical grid of 6x7, closed at the bottom. In turns each player drops a counter of his colour in the column of his choice, until one of them makes a line of 4 counters of his colour, like in Morpion. Easy you think? But it's not and if you don't like the classical game rules you can just change them in iPuissance 4D: 10x10 grid, 2 Per Turn, No Fill C...

The Connect 4 grid can be rendered in 3D (three dimensions). The game displays players' scores, time left and supports different game rules. You can play locally against a friend without any internet connexion, or you can play online. You can also train yourself by playing against the computer (an artificial intelligence).

Come and play against other players on the net; you can connect to our Beroux.com server and play against some real players for free. The internet players gain points (for the ranking), they can chat together (before and during the game), and you don't even need to register to play on-line. A high score page displays the best players.
