## Descriptif de l'éditeur

Print Explorer is an application that controls all printing activity. This spy solution helps you stay in touch with printer activities even if you are not in your office or at home. You'll get the reports for each user, in case of multiple users on a computer, by e-mail by specifying an e-mail address and the frequency for sending e-mails.

Print Explorer allows you to manage printing, audit and log all printing activity, analyze and monitor your printing cost, and a very important thing, to eliminate wasted paper. All of these are possible because using this application you can see the number of printed pages and their cost.
