Descriptif de l'éditeur

CarbonFolder is a fast and easy in use data synchronization utility, which allows the user to synchronize data in different folders located in home PC and local network. The utility features a simple interface designed as a step-by-step wizard, which is clear to anyone and lets users perform synchronization in seconds. What's more, the program saves any newly created task for the next launch. Supports Windows 98/Me/NT/2000/2003/XP/Vista.
