## Descriptif de l'éditeur

Animation EffectBox creates GIF and AVI animations on the base of predefined effects (such as moving objects, small particles, running text, wave, shake, appearance, explosion, changing brightness). You define sequence and parameters of separate effects to get peerless animations quickly and easy.

### Program features:

- loads background picture for created animation from BMP, JPEG, PSD, PCX, PNG, GIF- files;
- manages the list of animation effects and calls edit dialogs to set parameters of each effect;
- defines animation parameters: count of frames and delay;
- builds animation on the base of list of animation effects;
- exports created animations to GIF and AVI-files;
- optimizes size of created GIF-files;
- saves animation scripts in AME-files;
- creates GIF and AVI-files from command line in batch mode;
- supports internationalization.
