Descriptif de l'éditeur

Visicom Media's AceFTP 3 Freeware is the easiest-to-use free FTP client software available for transferring files over the Internet.

Its cool, uncluttered drag-and-drop interface, designed in a Windows XP fashion, lets you transfer files quickly and efficiently and navigate with ease between folders, both on Web sites and on your computer.

This robust, free FTP software is a high-speed FTP program. It enables you to perform multiple file transfers simultaneously. Simply put, it beats many paid-for FTP client software products hands down.

- Windows XP-Style Interface
- Ability to store and configure your connections using the explorer-style advanced site manager
- Ability to make server-to-server file transfers
- Ability to open several FTP sites easily
- Ability to execute multiple file transfers concurrently
- Ability to preview files with the integrated viewer
- Ability to resume broken transfers
- Ability to monitor transfers graphically with the transfer rate viewer
